

1	HOPE Archive Profile		EAD 2002 / Premis / Europeana Namespace					Local Element	Language	Mapping Local-EAD	
2	area	subarea	archive element	definition	occurrences	cardinality	conditions			ead element	
3	Description Control Area		content provider	ens:dataProvider	Name of the institution supplying the metadata to the HOPE aggregator.	single value	mandatory		x	x	/ead/eadheader/profiledesc/creation[@encodinganalogue="ens:dataProvider"]
7			aggregator	ens:provider	Name of the aggregator, supplying metadata to one or more discovery services	single value	mandatory		x	x	/ead/eadheader/eadid@mainagencycode
10			language metadata	hope:language	Primary language of the metadata describing the collection item(s).	single value	mandatory		x	x	/ead/eadheader/eadid/profiledesc/language/language@langcode
14	Administrative Metadata		type	ens:type	The Europeana material type of the digital representation, which is used to create the Europeana Type facet search.	single value	mandatory		x	x	/ead/archdesc/dsc/c/did/daogrp/daodesc/note/table/tgroup/tbody/row/entry[@colname="type"]
15			language	premis:significantProperties	The language(s) of the intellectual content of the digital representation.	repeatable	mandatory, if	mandatory if the digital representation contains text	x	x	/ead/archdesc/dsc/c/did/daogrp/daodesc/note/table/tgroup/tbody/row/entry[@colname="language"]
16			rights	ens:rights	Statement about the rights held in or over the digital representation.	single value	mandatory		x	x	/ead/archdesc/dsc/c/did/daogrp/daodesc/note/table/tgroup/tbody/row/entry[@colname="rights"]
17	Derivative 2		resolve URL	ens:isShownBy	An unambiguous URL which allows retrieving a low resolution derivative of the digital representation from a Shared or Local Object Repository.	single value	mandatory, if	mandatory if there is no landing page and if the CP does not create PIDs for low resolution derivative files	x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="derivative 2"]/@href
18			local ID	ens:isShownBy	An unambiguous reference to a low resolution derivative of the digital representation, identifying this derivative in the local system of the content provider.	single value	mandatory, if	mandatory if there is no landing page and if the SOR creates PIDs for low resolution derivative files	x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="derivative 2"]/@id
19			persistent ID	ens:isShownBy	A globally unique, resolvable URL which allows identifying and retrieving a low-resolution derivative of the digital representation in- and outside the HOPE information system	single value	mandatory, if	mandatory if there is no landing page and if the CP creates PIDs for low resolution derivative files	x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="derivative 2"]/@href
20			sequence	ens:isNextInSequence	An identifier for the digital	single value	optional		x	x	sequence daogrp wrappers OR if sequence
22	Derivative 3		resolve URL	ens:object	An unambiguous URL which allows retrieving a thumbnail of the digital representation from a Shared or Local Object Repository.	single value	optional		x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="derivative 3"]/@href
23			local ID	ens:object	An unambiguous reference to a thumbnail of the digital representation, identifying this thumbnail in the local system of the content provider.	single value	optional		x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="derivative 3"]/@id
24			persistent ID	ens:object	A globally unique, resolvable URL which allows identifying and retrieving a thumbnail of the digital representation in- and outside the HOPE information system	single value	optional		x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="derivative 3"]/@href
25	Transcription		transcription	premis:significantProperties	A manually or automatically generated transcription of the textual content of a digital representation.	single value	optional		x	x	/ead/archdesc/dsc/c/did/daogrp/daodesc/note/table/tgroup/tbody/row/entry[@colname="transcription"]
26			resolve URL	premis:relatedObjectIdentification	An unambiguous URL reference to a text file containing the transcription.	single value	optional		x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="transcription"]/@href
27			local ID	premis:relatedObjectIdentification	An unambiguous reference to a text file containing the transcription, identifying this text file in the local system of the content provider.	single value	optional		x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="transcription"]/@id

A	B	C	D	E	F	G	H	I	J	K
28		persistent ID	premis:relatedObjectIdentification	A globally unique, resolvable URL which allows identifying and retrieving a text file containing the transcription, in- and outside the HOPE information system	single value	optional		x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="transcription"]/@href
29	Landing Page	resolve URL	ens:landingPage	An unambiguous URL reference to the digital representation on the provider's OPAC, in its full information context.	single value	mandatory, if	mandatory if the CP does not create PIDs for landing pages	x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="landing page"]/@href
30		persistent ID	ens:landingPage	A globally unique, resolvable URL which allows identifying and retrieving the digital representation on the provider's OPAC, in its full information context.	single value	mandatory, if	mandatory if the CP creates PIDs for landing pages	x	x	/ead/archdesc/dsc/c/did/daogrp/daoloc[@label="landing page"]/@href
31	Identity Statement Area	Reference Code (1.1)	call number	ead:unitid	A reference number or	single value	mandatory	x	x	/ead/archdesc/dsc/c/unitid?type="call number"
32			local ID	ead:unitid	An unambiguous reference	single value	mandatory, if	x	x	/ead/archdesc/dsc/c/unitid?type="local id"
36			persistent ID	ead:c@id	A persistent identifier for	single value	mandatory, if	x	x	/ead/archdesc/dsc/c/@id
40	Parent Record	local ID	dcterms:isPartOf	An entity in the HOPE related entity describing a series or collection in which the described collection item(s) are physically or logically included.	single value	mandatory, if	mandatory if a CP does not create PIDs for descriptive units	x	x	Nest the c level of the current descriptive unit in the c level for which the local id (/ead/archdesc/dsc/c/unitid?type="local id") corresponds with the value provided by the CP.
41			persistent ID	dcterms:isPartOf	A persistent identifier of a related entity describing a series or collection in which the described collection item(s) are physically or logically included.	single value	mandatory, if	mandatory if a CP creates PIDs for descriptive units	x	Nest the c level of the current descriptive unit in the c level for which the persistent id (/ead/archdesc/dsc/c/@id) corresponds with the value provided by the CP.
42	Sequence	local ID	ens:isNextInSequence	A local identifier of another descriptive unit, as part of an ordered series of descriptive unit, that should be displayed immediately after the given descriptive unit.	single value	optional		x	x	Map the c level of the current descriptive unit immediately after the c level for which the local id (/ead/archdesc/dsc/c/unitid?type="local id") corresponds with the value provided by the CP.
43			persistent ID	ens:isNextInSequence	A persistent identifier of another descriptive unit, as part of an ordered series of unit, that should be displayed immediately after the given unit.	single value	optional		x	Map the c level of the current descriptive unit immediately after the c level for which the persistent id (/ead/archdesc/dsc/c/@id) corresponds with the value provided by the CP.
44	Level of Description (1.4)	level of description	ead:c@level	A term identifying the hierarchical level of entity describing the collection item(s).	single value	mandatory		x	x	/ead/archdesc/dsc/c@level
45	Title (1.2)	title	ead:unittitle	The title or name of the described materials	repeatable	mandatory		x	x	/ead/archdesc/dsc/c/did/unittitle
46	Date(s) (1.3)	date of creation	ead:unitdate	A statement naming the year(s), month(s), or day(s) the described materials have been created.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/unittitle/unitdate
47	Extent and medium of the unit of description (1.5)	appearance of the material	ead:physdesc	Information about the appearance, condition, and extent of the described materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/physdesc
48		extent	ead:extent	Information about the extent of the described materials, specified by using the additional unit of measurement.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/physdesc/extent
49		genre of the fonds	ead:genreform	Information about specific types of archival materials, e.g. collections, or about specific physical characteristics.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/physdesc/genreform
50	Text Area	Name of Creator(s) (2.1)	origination	ead:origination	The institution or person	repeatable	optional	x	x	/ead/archdesc/dsc/c/did/origination
51			origination - name of person	ead:origination/persname	A person responsible for	repeatable	optional	x	x	/ead/archdesc/dsc/c/did/origination/persname
58			origination - name of corporation	ead:origination/corpname	The institution responsible	repeatable	optional	x	x	/ead/archdesc/dsc/c/did/origination/corpname
65		Administrative / Biographical History (2.2)	administrative / biographical history	ead:biohist	Information about the creation and the creator(s) of the described materials.	repeatable	optional		x	x
66	Archival History (2.3)	archival history	ead:custodhist	Information about the custody and formation of the fonds.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/custodhist

	A	B	C	D	E	F	G	H	I	J	K
67		Immediate Source of Acquisition or Transfer (2.4)	immediate source of acquisition	ead:acqinfo	Information about the immediate source of the described materials and the circumstances under which they were received.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/acqinfo
68	Content and Structure Area	Scope and Content (3.1)	content summary	ead:scopecontent	A short abstract summarising the topical coverage of the described materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/scopecontent
69		Appraisal, destruction and scheduling information (3.2)	appraisal information	ead:appraisal	Information about the process of determining the archival value of the described materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/appraisal
70		Accruals (3.3)	accruals	ead:accruals	Information about anticipated additions to the described materials, that can indicate quantity and frequency.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/accruals
71		System of Arrangement (3.4)	arrangement	ead:arrangement	Information about the principle characteristics of the internal structure, identifying the physical or logical groupings within the hierarchy of the described materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/arrangement
72		Controlled Access Headings	keywords	ead:controlaccess	A list of keywords associated with or covered by the described materials, including persons, corporations, materials, topical terms as well as places.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/controlaccess
73			index of persons	ead:controlaccess/persname	A list of persons, including those who are not identified in the materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/controlaccess/persname
80			index of corporations	ead:controlaccess/corpname	A list of corporations and other organizations.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/controlaccess/corpname
87			index of families	ead:controlaccess/famname	A list of family names in contrast to the index of persons used when tagging the name(s) of a group of persons closely related to one another or persons who form a household.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/controlaccess/famname
88			index of materials	ead:controlaccess/materials	A list of materials, genre forms, or physical characteristics.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/controlaccess/materials
89			index of subjects	ead:controlaccess/subject	A list of topical terms associated with or covered by the described materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/controlaccess/subject
95	index of places		ead:controlaccess/geogname	A list of geographical locations.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/controlaccess/geogname	
101	Conditions of Access and Use Area	Conditions Governing Access (4.1)	conditions governing access	ead:accessrestrict	Information about the conditions that affect the availability of the described materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/accessrestrict
102		Conditions Governing Reproduction (4.2)	conditions governing use	ead:userrestrict	Information about limitations, regulations, or special procedures that affect the use of the described materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/userrestrict
103		Language / Scripts of Material (4.3)	languages of the described materials	ead:langmaterial	A statement about the language(s) the described materials are written in.	repeatable	mandatory, if	mandatory if descriptive unit is an item and physical item contains text	x	x	/ead/archdesc/dsc/c/did/langmaterial
104		Physical Characteristics and Technical Requirements (4.4)	physical characteristics	ead:phystech	A description of physical conditions or characteristics that affect the storage, preservation, or use of the material.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/phystech
105		Finding Aids (4.5)	other finding aids	ead:othfindaid	A reference to other finding aids or guides to the described materials, e.g. card files, inventories, or lists created by the originator.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/othfindaid
106		Repository	repository	ead:repository	An archival institution or agency providing access to the described materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/repository
107		Allied Materials Area	Existence and Location of Originals (5.1)	location of originals	ead:originalsloc	Information about the existence, location, and availability of originals where the described materials contain copies.	repeatable	optional		x	x
108	Existence and Location of Copies (5.2)		alternative form available	ead:altformavail	A reference to alternatively available forms of the described materials, e.g. microfilms or digital reproductions.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/altformavail

	A	B	C	D	E	F	G	H	I	J	K
109		Related Units of description (5.3)	related material	ead:relatedmaterial	Information about other archival materials that are related to the described ones in regards of content or origination, but not included.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/relatedmaterial
110			separated material	ead:separatedmaterial	Information about materials that are associated by provenance to the described ones, but have been physically separated or removed.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/separatedmaterial
111			References (5.4)	bibliography	ead:bibref	Citations to books, articles, web sites, or other forms of information that are based on, about, or of special value when using the described materials.	repeatable	optional		x	x
112	Notes Area	Note (6.1)	general notes	ead:note	General remarks on the described materials.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/note
113			other descriptive data	ead:odd	Further information concerning some special types of archival material such as historical public records or bulla, that cannot be tagged in any other element.	repeatable	optional		x	x	/ead/archdesc/dsc/c/did/odd
