

On Thursday, May 11, 1972 – the day the mines blockade of the US imperialists against North Vietnam began – the "Petra Schelm Commando " detonated three bombs with an impact of 80kg TNT at the Frankfurt Headquarters of the 5th Army Corps of the US forces in West Germany and West Berlin. West Germany and West Berlin shall no longer be a safe hinterland for the extermination strategists against Vietnam. They must understand that their crimes against the Vietnamese people have provided them new and bitter enemies, that there will be no more place in the world where they could be safe from attacks by revolutionary guerrilla units.

We demand the immediate stop of the mines blockade against North Vietnam.  
We demand the immediate stop of the bombing of North Vietnam.  
We demand the withdrawal of all American troops from Indochina.

For the victory of the Vietcong!  
Build up the revolutionary guerrilla!  
Dare to fight - dare to win!  
Create two three many Vietnams!

RED ARMY FACTION – May 14, 1972
