

Yesterday evening, on Wednesday May 24, 1972, two bombs with an impact of 200 kg TNT, were detonated at the Heidelberg headquarters of the American Armed Forces in Europe. The attack was carried out after General Daniel James, Department Head at the Pentagon, said, on Wednesday in Washington, "For the U.S. Air Force, no target North or South of the 17th parallel in Vietnam will be exempt from bomb attacks." On Monday, Hanoi's Foreign Minister again accused the United States of bombing densely populated areas in North Vietnam.

In the last seven weeks the American Air Force has dropped more bombs on Vietnam than were dropped on Japan and Germany in World War II. The Pentagon says it intends to stop the North Vietnamese with millions of tons of explosives more. This is murder, genocide, it would be the 'final solution' for the Vietnamese people.

The people in Germany don't support the security services in their search for the Commandos because they want nothing to do with the crimes of American imperialism and the support which it receives from the ruling class here, because they haven't forgotten Auschwitz, Dresden, and Hamburg, because they know that the bomb attacks against those who commit mass murder in Vietnam are just, because they know from experience that demonstrations and words are of no use against the crimes of imperialism.

We demand an end to the bomb attacks on Vietnam.

We demand an end to the mines blockade against North Vietnam.

We demand the withdrawal of American troops from Indochina.

We will continue our attacks against the mass murderers of Vietnam until the victory of the Vietcong.

We call on all militants in the West Germany and West Berlin to make all American bases targets of their attacks in their political struggle against US imperialism.
